Warren Buffet Voren Bafet Benjamin Graham Bendžamin Graham
David Dodd Dejvid Dod Opis: „A road map for investing that I
have now been following for 57 years. " --From the Foreword by
Warren E. Buffett First published in 1934, Security Analysis is one
of the most influential financial books ever written. Selling more
than one million copies through five editions, it has provided
generations of investors with the timeless value investing
philosophy and techniques of Benjamin Graham and David L.
Dodd. As relevant today as when they first appeared nearly 75
years ago, the teachings of Benjamin Graham, "the father of value
investing, " have withstood the test of time across a wide diversity
of market conditions, countries, and asset classes. This new sixth
edition, based on the classic 1940 version, is enhanced with 200
additional pages of commentary from some of today's leading
Wall Street money managers. These masters of value investing
explain why the principles and techniques of Graham and Dodd
are still highly relevant even in today's vastly different markets.
The contributor list includes: Seth A. Klarman, president of The
